Creating synergies for a biobased society

Coastal zone management and marine planning from a local perspective in northern Bohuslän

Carl Dahlberg, PhD Tillväxt Norra Bohuslän

Where do we do what, at and by the sea?

Sustainable use of a common resource!

A collaboration between the municipalities of Strömstad, Tanum, Sotenäs and Lysekil together with the county municipal board and the region of Västra Götaland

2013-2017

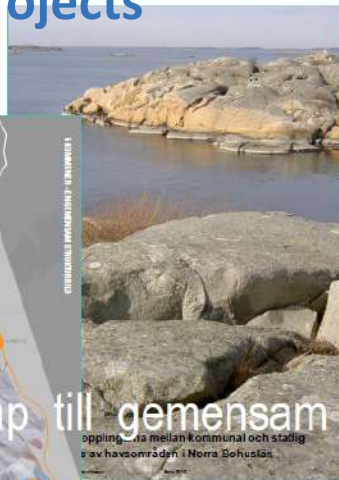

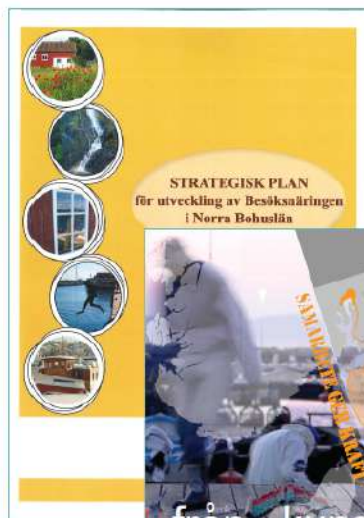

4 municipalities – similar issues

Blue master plan och Maritime business strategy is a joint effort by 4 municipalities in the north of Bohuslän.

- High pressure on development
- Small municipalities; large group of summer season residents
- Exceptional natural archipelago
- Opportunities and possibilities
- Unique marine values

A process built on multiple projects

Better

Why do we need to plan the sea?

Examples when Sotenäs needed a Blue master plan

- Transocean gas pipes
- Wavepower localisation
- Permits for mussel farming

Good planning can speed up the permit and zoning decision process!

Dark blue planned in cooperation with the national process

Light blue municipal planning only

Values making northern Bohuslän attractive

- Nature and the country scenery
- Cultural history values
- Living, populated, active coastal villages

Structure plan accepted in 2010

Coastal zone planning:

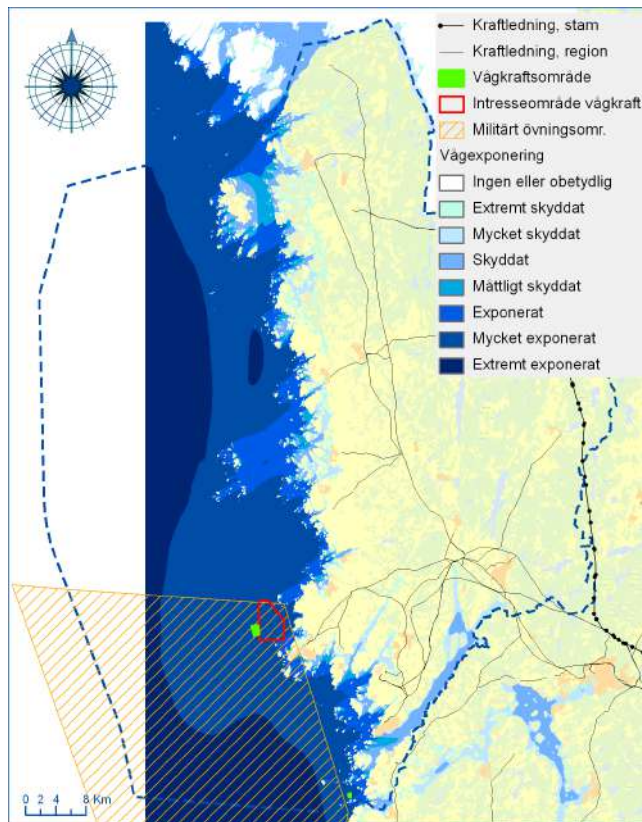

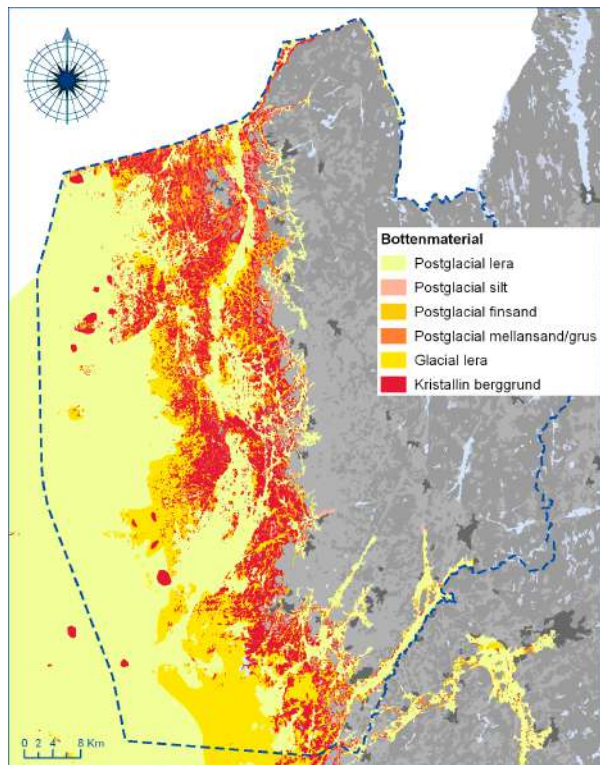

In each structure the municipalities have agreed on an important basis for formulating common planning decisions.

SHARED VALUES FOR SPATIAL PLANNING

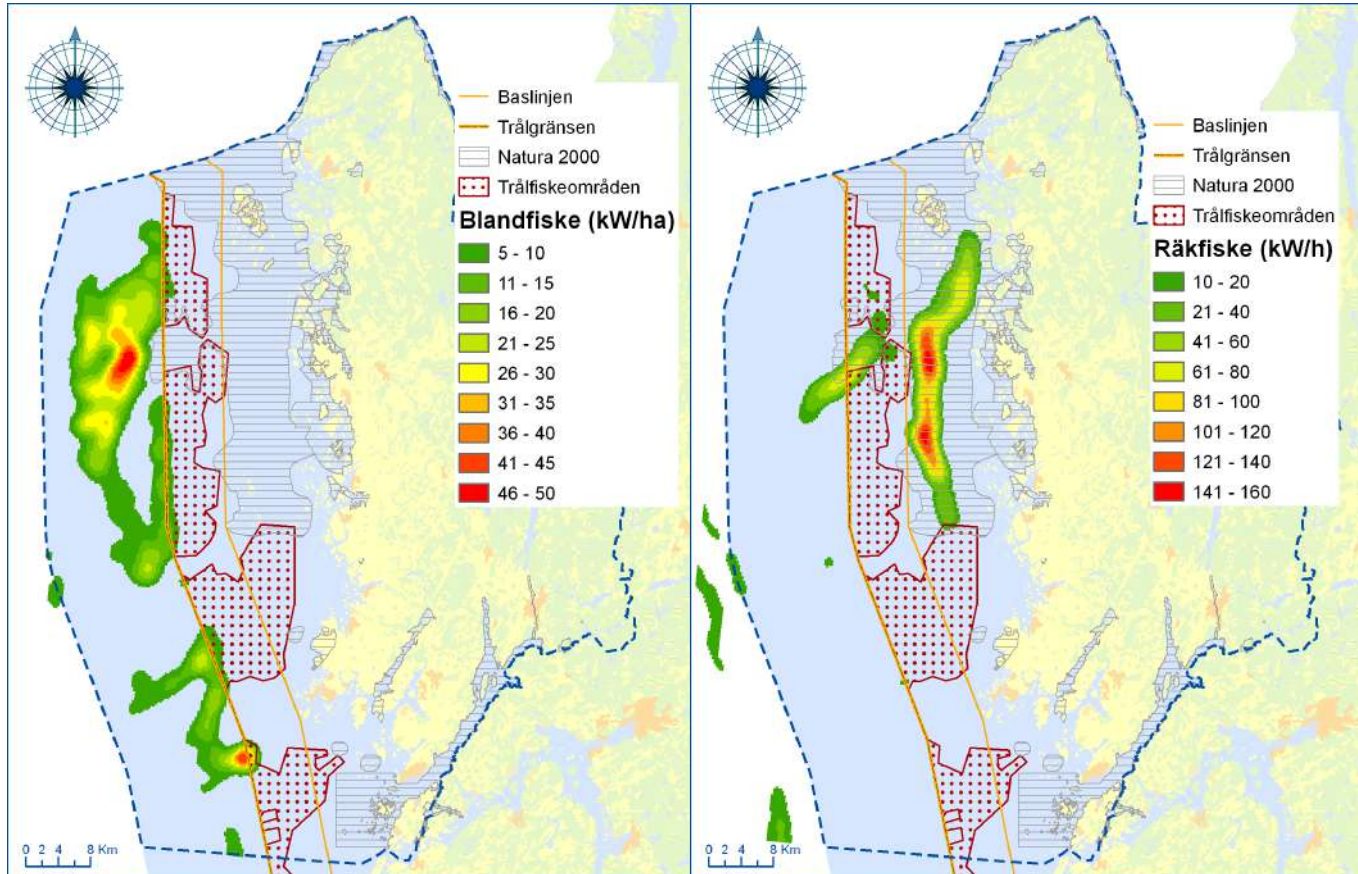

Sediment, rocks and waves

Why a Maritime business strategy?

Call attention to existing business

Attract businesses with marine agendas

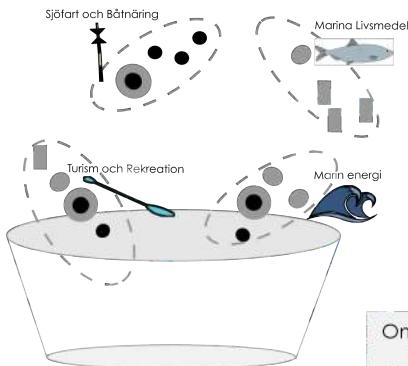

Make support available for business we want here

Development projects

EU, Fishingfund, Leader, Department of agriculture, ...

Declare intent and direction

- Rapporter
- Rundabordssamtal
- Kompetensdagar
- Intervjuer

Nuläge

Omvärldsbevakning,
förutsättningar
(demografi, konkurrens,
forskning, möjligheter)

Analys

Externa direktiv,
strategier, mål,
handlingsplaner

Förslag

Bred remiss

Näringslivs-
remiss

Maritim Näringslivsstrategi

Varför?

Planera för utveckling

Synliggöra befintligt näringsliv

Attrahera företag som vill etablera sig i det marina området

Möjliggöra stöd till näringar som vi vill ha här

Utvecklingsprojekt

EU, Fisketonder, LLU, JSV, ...

Visa vad vi vill

Lämna dina synpunkter:
